

2017 energy engineering construction CAREERS FAIR

www.esp-scotland.ac.uk

Thursday 26th January 2017 at Perth Concert Hall, Perth 10:00am – 3:00pm

EXHIBITOR BOOKINGS NOW OPEN

Who will be there?

- Over 500 HNC and HND Engineering (Electrical / Mechanical / Control and Instrumentation Engineering) and Construction Students

- Wind Turbine Technicians

Why exhibit?

- Excellent opportunity to raise your company's profile with students from colleges across Scotland keen to pursue a career in the engineering, construction and energy sectors
- Chance to network with candidates from all over Scotland in one central location
- Presentation opportunities available
- FREE to exhibit with refreshments and exhibitors networking lunch provided
- College Showcase - opportunity to see some of the training equipment currently being used in the colleges

"Just to say how much our students enjoyed yesterday's event, a great opportunity for employers and prospective apprentices to get together in a meaningful context"

Feedback received from a College at last year's event

"The whole recruitment process can be daunting for both applicant and employer. But this event provided an ideal opportunity to develop a working relationship prior to jumping in to applications and interviews. And that can only be beneficial for both parties."

Feedback received from exhibitor at the event

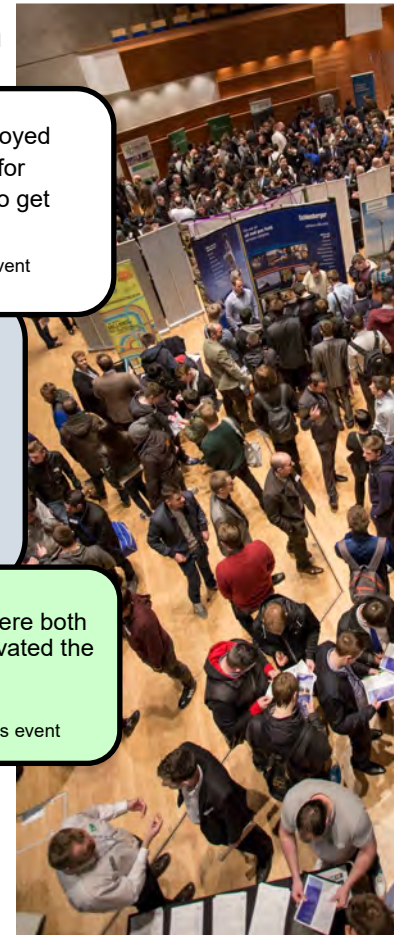

"We really enjoyed the day and we were both impressed by how prepared and motivated the students were."

Feedback received from Employer at last year's event
